

**BestPack Introduces Our New
Water Based Acrylic
BG Carton Sealing Tape**

**Specially Formulated for up to
100% Recycled Corrugated**

Why choose our BG Tape?

The challenge most companies have using 100% Recycled Corrugated is finding a pressure sensitive tape that sticks to the board. BestPack has specially formulated a solution to this issue with our new line of BG Carton Sealing Tape.

By using recycled corrugated (up to 100%), this allows you to not only save money on your packaging costs, but take the next step in improving your overall green footprint.

Start using BestPack's BG Carton Sealing Tape!

Our flagship model. This system comes with casters and infeed & exit conveyors making this the cost saving "problem solver" for your carton sealing applications.

Designed to cater to the needs of light to heavy duty, uniform carton closure applications. The MBD is an affordable bottom belt driven carton sealer and created with four adjustable legs for quick & easy height adjustment to production lines.

The MSDBF is a solution geared towards increasing output and reducing operator repetitive motion. This all-in-one station allows for an operator to form, pack, and seal a box efficiently without the need of a costly carton erector.

Promotional Pricing subject to end without notice.

Invest in a solution that is built on **Reliability, Quality, & Innovation.**
