

Bolphane® BY

Multipurpose polyolefin shrink film with-high yield

- High performance and productivity with outstanding yield.
- Low temperatures and less energy with high shrinkage.
- Fast sealing and hot tack.
- Hot slip properties after shrinkage.

APPLICATIONS

Unique technical properties allow Bolphane BY to give excellent results from manual to automatic high speed machines.

High degree of shrinkage, low shrink temperature, good optics and outstanding machinability: Bolphane BY is very versatile and uniquely suited to a large variety
